Professional Summary

Java Full Stack Developer specializing in Spring Boot and Angular with experience building secure, scalable enterprise applications. Strong foundation in REST APIs, Java, relational databases, web services, database design, troubleshooting, JWT authentication, networking fundamentals, Linux, XML, JSON, and data structures & algorithms, with the ability to analyze and resolve technical issues while learning emerging technologies.

Technical Skills

Languages: Java, JavaScript, TypeScript, SQL

Frameworks: Angular 20, HTML5, CSS3, SCSS, RxJS, Bootstrap CSS, Tailwind CSS, Spring Boot, Spring Security, Spring Data JPA, Hibernate, JWT, REST APIs

Databases: MySQL, Joins, Indexing, Database Normalization

Tools: VS Code, IntelliJ IDEA, Postman, Git, Maven, GitHub

Cloud & Deployment: Render, Netlify, TiDB Cloud

Core Concepts: OOP, Collections, Exception Handling, Multithreading (basic), Microservices (basic understanding), Networking Fundamentals

Operating Systems: Windows, Linux

Soft Skills: Troubleshooting, Analytical Thinking, Communication & Collaboration

Problem Solving: Solved 100+ DSA problems on LeetCode

Projects

AgileFlow – Project Management System

June 2026 – Present

Angular 20, TypeScript, SCSS, Java 17, Spring Boot 3.x, Spring Security, JWT, Hibernate, MySQL

- Built a full-stack Jira-inspired project management platform supporting authentication, RBAC, sprint planning, issue tracking, worklogs, notifications, and reporting using Angular 20 and Spring Boot.
- Developed secure REST APIs with DTO mapping, validation, and centralized exception handling.
- Designed a scalable frontend with reusable components and seamless API integration.

Experience

Tann Mann Foundation

June 2026 – present

Frontend Developer Intern – remote

- Developed 10+ reusable Angular standalone components, reducing duplicate UI code by 30%.
- Built reactive user interfaces using RxJS and Angular Signals, managing asynchronous data flows and real-time state updates efficiently.
- Enhanced application performance with lazy loading, optimized change detection, and route-level code splitting for faster page loads.
- Integrated secure REST APIs with Angular HttpClient, JWT authentication, HTTP interceptors, and centralized error handling for reliable backend communication.

Education

Mass College Of Arts and Science

May 2026

Master of Computer Applications (CGPA: 7.25)

Kumbakonam, Tamilnadu

Certifications

Responsive Web Design (FreeCodeCamp): Practical knowledge of responsive web design

Introduction to Artificial Intelligence (Infosys SpringBoard): Basics of AI, ML, and LLM

Prompt Engineering (Infosys SpringBoard): Effective AI communication techniques

Achievements

National Level Technical Meet (1st Place)

Feb 2025

Issued by Annai College of Arts & Science
